EDUCATE. MITIGATE. AVIATE.
Empower your aerial workflow

VERTICALLY-FOCUSED UAS TRAINING AND CONSULTING.
INFINITE POSSIBILITIES.
ENDLESS OPPORTUNITIES.

FEDERAL. STATE. MUNICIPAL. COMMERCIAL. ENTERPRISE.
PRIVATE. INDIVIDUAL.

Sundance Media Group provides training courses created for specific uses of UAS/Drones in nearly any imaginable environment with real world scenarios. One of the only organizations training to the Unmanned Flight Industry Training Standards (UFITS), our clients come away with greater experience, information, risk-mitigation tools, and deep knowledge than any other training program available today.

Why you should choose Sundance Media Group?

- ✓ INDUSTRY-RECOGNIZED, SUBJECT MATTER EXPERTS
- ✓ FOCUSED, RELEVANT TRAINING TOOLS
- ✓ COUNTRY-WIDE, CERTIFIED INSTRUCTORS
- ✓ 25 YEARS OF TRAINING EXCELLENCE
- ✓ CUSTOMIZED COURSES FOR EACH

Each of our training programs are custom-tailored to the agency or client needs. Most programs include client-specific training manuals. Active in the relevant verticals, we are prepared to ask questions and identify efficient methods of presenting information and building evaluative and physical skills for each pilot, program manager, and leadership.

Contact us today to schedule a consultation and proposal.

Whether beginning a small business, standing up a municipal UAS program, or adding UAS to a construction site or other organizational workflows, UAS training provides a structured learning environment, speeding the professional and risk-ready growth of any pilot, regardless of experience. SMG offers vertically focused training going far beyond Part 107 or even "basic" flight maneuvering.

Our flight instructors hold FAA certifications in several disciplines, and our instruction is scenario-based, using the FAA FITS training standard, ensuring pilots not only understand the "how" of an action or decision tree, but more importantly, to understand the "why" of the action or decision-making process.

With 25 years in aviation and cinema/image-focused training, there is no other organization able to provide the ROI Sundance Media Group offers.

25 years of training excellence!

I have been an educator for literally 45 years, an FAA certificated fixed-wing pilot for over 30 years (ATP & MCFI), and a professor of Aviation Technology at the University of Alaska for 20 years. SMG is truly a "cut above" and I recommend them without reservation for any person or agency's training needs.

Mark Madden Professor of Aviation Technology
University of Alaska
